LANGUAGE RECLAMATION PROJECT

## Student Agreement

Each person within our communities has a birthright to learn their language in a friendly and respectful environment. We ask that you adhere to the following:

- Please ask for help when you feel you need it. We do not want anyone to feel ridiculed when they make a mistake or pronounce something awkwardly.
- Please keep in mind that each person speaking needs our respect and attention.
- Please take the responsibility of working on your language skills during non-class time.
- Have faith in the teaching process and trust that you will learn the language in time.
- **Distributing, copying, and selling course materials to individuals outside of the classroom community is strictly forbidden. All materials used for this course are copyrighted.**
- Please do not skip classes if you can avoid it.

I understand the above protocols set by the language project and agree to adhere by them. I also understand that I may not invite a guest to class without prior notification to the class.

I understand that there may be guests such as language teachers, professors, videographers, or student friends, in the classroom occasionally provided that everyone feels comfortable to speak in front of the guest.

I understand that there is no tuition for any classes but that I will be asked to donate volunteer hours to help support the continued efforts of the project.
